# About Us

## Who We Are?

**Ynet Technology Ltd** is a technology conglomerate comprising of five brands; Ynet Interactive, Close-Guard Technology, UfitPay Solutions, Mobile VTU Solutions, Callservy Solutions and SMSKit Communications. Page | 2

Ynet Technology offerings cut across Information technology, Financial technology, IoT, Security technology, Telecommunications, and various other areas of technology.

Founded in 2012, the Ynet brand has become globally known for its creativity with client-base cutting across over 95 countries in the world.

Our business is driven by innovation and cost saving, leveraging on our vast experience in the global technology industry to deliver “cutting-edge” solutions to our target market, within and outside Nigeria.

## Our Mission

We want to offer convenience to our target market by providing them with functional, innovative and affordable solutions

Page | 3

## Our Vision

We seek to become a market leader in delivering innovative technology solutions in West Africa

## Our Core Values

Our business revolves around Innovation, Integrity and Cost Saving

# Our Brands

[www.closeguardtechnology.com](http://www.closeguardtechnology.com)

**Close-Guard Technology** is an information technology outfit with focus on providing innovative technology solutions in areas of monitoring, safety, security, surveillance and access-control.

Close-Guard Technology was founded in August 2018 by a group of creative Nigerians, who share a common vision of offering world-class, yet affordable technological innovations solutions to the local market

Through global partnerships and strategic alliance, Close Guard Technology is able to research, design, develop and deliver ingenious products and services to its target market at very competitive rates.

**Ynet Interactive** is an Information Technology solutions outfit with focus on delivering high-performance, affordable and scalable cloud-based solutions and process automation technology solutions.

Founded in 2012, Ynet Interactive specialize in delivering cutting-edge cloud solutions including Custom Website Design & Development, Mobile App Development, Database Management System, e-Commerce Development, Software as a Solution (SaaS), ERP Solutions, Web Hosting, Domain Registration, Business Process Automation, ICT Training and other related web-technology solutions.

**UfitPay** is an integrated online payment platform, utilizing cutting-edge technological innovations to provide secure, affordable, reliable and seamless payment solutions to the market.

Founded in 2021, UfitPay leverages leverage on technological innovations to bridge the gap in bill payments, collection and remittance solutions in Nigeria by providing a brand that the market can both identify with and trust.

UfitPay offerings includes Bill Payment Services, Collection Services, Disbursement Services, Virtual Banking Services, Mobile Top-up Services, Fund Transfer Services, Payment API Services and many other financial technology solutions

**[www.mobilevtu.com](http://www.mobilevtu.com)**

**MobileVTU** is a mobile airtime and data top-up platform, which offers quick and easy top-up solutions over multiple channels including Web-portal, Mobile App, API, USSD and SMS.

Founded in 2019, MobileVTU's aim has been to build & run the safest, simplest, most effective & convenient top-up service, in partnership with the best operators and aggregators.

MobileVTU services includes Virtual Airtime top-up, Data top-up, Mobile top-up APIs, Bulk top-up, Scheduled top-up and other related services.

**[www.smskit.net](http://www.smskit.net)**

**SMSKit** messaging platform, which provide reliable and affordable mobile messaging & communication technologies, offering both transactional and promotional messaging solutions with coverage to more than 760 networks around the world.

Founded in 2012, SMSKit products are aimed in building its customers success while helping them achieve their business communications and outreach objectives.

SMSKit services include Bulk SMS, Automated Voice calls, Bulk WhatsApp Messaging and Multimedia messaging. SMSKit also offers enterprise messaging API as well as HRL technologies.

[www.callservy.com](http://www.callservy.com)

**Callservy** is a Cloud-based All-in-one call-centre and customer service management and automation platform for businesses & organizations.

Founded in 2022, Callservy main mission is to disrupt the call-centre market by offering the target market (most especially the Nigeria market) a Flexible, Secure, Feature-Rich, yet Simplified all-in-one Customer Service platform at only a fraction of the usual market price.

Callservy offerings include Call Centre & IVR Technology, Local Numbers, Support Tickets Management Technology, Live Chats Technology, Facebook Messenger, WhatsApp Messenger, Auto Dialer Technology and SMS Messaging Technology.
